City Fathers Meet

The regular fortnightly meeting of the Blairmore council was held on Monday night, the mayor and Councillors Drain, Brisco, Sinclair, McLeod and Hinds being present.

The minutes of previous meeting were read and approved, after which the following accounts were read and ordered filed subject to the approval of the different committees: Joseph Montalbetti \$10.00, H. G. Bigelow \$5.35, Medical Health Officer \$125.00, C.P.R. \$12.52, Rocky Mountain Cement Co. \$103.50, L. Scott \$6.00, A. B. Nichols \$9.00, Pelletier Lumber Co. \$24.40, J. R. Irwin \$100.00, Dawson & Green \$251.87, The Dunlop Tire \$65.37, Blairmore Hardware Co. \$49.15, J. W. Graham \$50.75, W. J. Bartlett \$92.65, W. A. Beebe \$20.00, F. P. Snyder \$50, E. Hinde \$144.75, C. E. Hisecks \$100.00, James Richards \$4.50, J. H. Murphy \$24.25, Alberta Government Telephone \$13.30, Robbins & Paton \$21.00, J. Hoemer \$3.00, Postmaster \$3.00, F. Scordo \$3.00, Blairmore Electric District \$755.55, A. Peggola \$18.00, W. L. Evans \$49.00.

Report of lights out for the month of August was ordered filed.

Notice of Court of Revision was ordered filed.

By-Law No. 28, to provide for the borrowing of \$3,400.00 from the Union Bank of Canada on the credit of the town until such time as taxes can be collected, was read a first, second and third time and finally passed.

Councillor Drain asked if anything definite had been done in connection with the winding up of the estate of the late Peter Smith.

Councillor McLeod stated that the deed was in his possession and that Mr. Pelletier, from whom Smith agreed to purchase two lots in the Pelletier addition, had promised to allow one lot to go over to the creditors of the deceased.

There were several local accounts against the estate, and it was thought advisable to have the matter in the hands of Councillor McLeod, who promised to endeavor to dispose of the lot and divide the proceeds proportionately among the different creditors.

Councillor Sinclair asked why it was that a number of accounts had been allowed to lay aside since contracted quite a while ago, instead of being brought up for approval at previous meetings. The secretary informed the councillor that only a few of the accounts had been so treated.

The mayor reported on his mission in attendance at the convention of the Union of Alberta Municipalities at High River. He informed the council that in connection with the poll tax, the appeal of the town received the unanimous endorsement of the convention, it being apparent to them that as far as some of the prairie towns were concerned conditions were hardly as urgent as in the mining camps where the population

was more transient, and the towns making appeals for the re-introduction of the poll tax system were given promise that the matter would be taken up with department of municipal politics and arranged so that it would be left to the discretion of the town whether or not they should adopt the poll tax system.

Regarding the automobile license, this was covered by the present town's act, which was clearly interpreted.

Other matters were given lengthy consideration.

Fire Chief Burrows was in attendance at the meeting, and informed the council of his plans to re-organize the organization of a volunteer fire brigade.

The question of town lights came up for discussion, and some of the members of the council felt that a certain amount of discrimination was being exercised by the agents of the Rocky Mountain Cement Co. within the past few months. Some subscribers who refused to pay for lights when bills were presented were immediately cut off, and being disconnected were made a loss of \$2.00 was required, while from others a fee of one dollar had been demanded and received for re-connection. Other cases are known where accounts were permitted to run for a period of two months in arrears and no steps taken to cut off the service. It thus appeared plainly that a system of discrimination was being practiced, and the town was asked to take the matter up in the interest of subscribers to the service in general, and not have any company make "a horse of one and a sheep of another." Every member of the council understood, and every subscriber to the light service should understand that they have been paying for a service they have never received. No one can doubt but that the local management of the Rocky Mountain Cement Co. have been endeavoring to give the best service and have been using the equipment at their disposal to its limit in order to reach the satisfaction of the public, but in spite of this fact, the public has not received the service for which they have been paying. The service during the past four or six months has been such as no where else but Blairmore would tolerate. We know of business establishments in the town who have lost more through the means of bad lights in one night than four months service would cost them, and The Enterprise has experienced such inconvenience during the past few months that despite the fact of a big bulk of work always on hand and the necessity of working nights to get through it, we have been obliged to close down by night because of insufficient light.

The meeting adjourned at 10 p.m.

John Kenney, former inspector of accounts for the province of Alberta, died Thursday after a protracted illness. He recently suffered his fifth paralytic stroke. No hopes were entertained for his recovery since early in August.

The new plant of the Edmonton Portland Cement Co. was formally opened and set going on Saturday, August 30th, when upwards of one hundred shareholders and others from Edmonton who are interested were present.

The visitors were shown over the works by Mr. Chester Pegg, manufacturing superintendent. The Edmonton Bulletin has the following to say regarding the new plant:

A strictly local enterprise, financed to the extent of 90 per cent. by local capital, and meeting a condition of tight money just at the most critical point in its career—namely, just before completion—it might have been thought that at some point the machine or the condition that was "just as good and cheaper" would have been used instead of the "very latest and best." It is entirely to the credit of the management that they have in no case yielded to that argument and have been successful in installing a plant that from first to last is complete in every detail necessary to the economical and profitable manufacture of an article of prime necessity in this district above all others in Canada, and yet which must be manufactured economically, or not at all. To the outsider the fact that the cement is not only weighed automatically while being placed in sacks, but that the sacks are tied by machinery and are filled from the bottom after being tied, is a striking instance of the up-to-date character of the plant.

At present the clay is handled by pick and shovel, but next season it is intended to install a locomotive crane and orange peel bucket for loading from the clay pits and to use dump cars, so that unloading will also be automatic.

New Cement Plant

The dimensions of the buildings are as follows:
Clay storage building 30x140 feet.
Drying building 24x130 feet.
Meal receiver 31x72 feet.
Storage building 43x195 feet, capacity 80,000 barrels.
Main storage building 85x200 feet, 20 bins of 4,000 barrel capacity each.
Coal storage building 35x112 feet.

Power house 42x78 feet, containing four Goldie & McCulloch water tube boilers fired by automatic chain grate stokers.

Smoke stack is 170 feet high and 7 feet in diameter. Coal consumption 250 tons per day. The engine room adjoining the boiler house is 35x65 and contains one 1,000 k.w. turbo generator, two 40 k.w. direct connected engine driven exciters, indicating and recording instruments, meters, automatic switches, etc.

An elevated tank with a capacity of 50,000 gallons has been erected for use in case of failure on the pumps. The tank gives 80 pounds pressure and the pumps 100 pounds.

In addition to the buildings

directly connected with the manufacture of cement is a workshop and storehouse of brick and steel 40x200 feet, containing a complete wood-working department, also a complete modern machine shop.

There is also an isolated building for oil storage with a capacity of 200 barrels.

At the present time the mill is turning out 1,000 barrels of cement per day, while the equipment is capable of manufacturing up to 1500 barrels when in full swing. It is hoped after a while to add some further equipment in order to increase the output to 2,000 barrels per day.

Marlboro is a brand new town, so young that it has not yet appeared on the map. At present the population is about 300, 125 of whom are employed in the new plant.

The prospect for the future of Marlboro are exceedingly bright, as the raw materials for the manufacture of cement and other clay and stone products are very extensive. Coal in great quantities is found at easy access.

Liquor License Ordinance

APPLICATION FOR WHOLESALE LIQUOR LICENSE

Application has been made by the Fernie Mountain Supply Company, Limited, for a Wholesale Liquor License in respect to a store to be erected on Lot 13 (3), Block seven (7), Bellevue, Alberta.

This application will be considered by the Board of License Commissioners at a meeting to be held in the License Branch Office, 300-8th Avenue West, Calgary, on Thursday, October 2nd, 1913, at 10 o'clock A.M.

DATED AT EDMONTON this 10th day of September, 1913. J. F. CLARRY, Deputy Attorney General.

Regina to get New Customs Building

Ottawa, Ont., Sept. 9.—The purchase of a site for a \$200,000 custom building in Regina was authorized by an order-in-council passed yesterday. The building will be located at the southeast corner of South Railway and Cornwall streets.

case of the King vs. D. Dunlop. His Honor granted the application in so far as the witnesses were subpoenaed, but reserved the question to pay the costs until after the trial on Friday at Macleod, when Mr. Putnam, the defendant's solicitor, has leave to move for the costs to be paid by the Province.

At the close of the cases and just before court adjourned, Mr. L. H. Putnam, on behalf of the local bar and for the convenience of the public, made a formal application to His Honor Judge McNeil asking that the September sittings be adjourned to some time in the near future as all the cases could not be disposed of at the present time. Judge McNeil intimated that next year the September sittings would be held later in the month of September, perhaps the last week instead of the first.

We were pleased to see all our local solicitors present in court fully gowned. It is a pleasure to see them dressed up once in a while in their black clothes gown and white tie.

We now have six lawyers practicing in the Blairmore district, namely, L. H. Putnam, Harry C. Moore, T. Ede, H. H. Roberts and Campbell & Gillis, and when these gentlemen all line up in court ready to participate, there must be some fighting going on that we know nothing about. They are evidently making a living by the looks of the above list of cases. Two years ago Mr. Putnam, Mr. Ede and Mr. Moore were the only ones stationed in The Pass. The increase shows how rapidly our glorious district is increasing.

The Department of Neglected Children

The work of the Department of Neglected Children since January 1st, 1913, has proved double that of the preceding year for a corresponding period. The number of cases dealt with has been enormous.

The Department has been fortunate in finding foster homes for practically all the children who have come under the care of the Department from various places in the Province.

167 children have been placed on probation in various places, and the records are good. It is a significant fact that, it has only been necessary to send 8 boys to a reformatory school during the past year. The record is the best in probation of any place on the American Continent.

Probation has proved its success, and it is not easily. The Department of Neglected Children, unfortunately is a non-revenue producing department, and must be considered as an expense which has to be met. Funds are not so able under the children's Protection Act except in cases of interference, and as the cases are usually adjusted without going into court, therefore, soon it becomes necessary to explain to the general public that the cost of running this department is heavy, and with a few returns in the way of money. Against this is the fact that, every child dealt with means an asset of \$1000 to the state on the basis established by the Immigration Authorities.

On the other hand, if the children are allowed to degenerate into criminals, the cost will be from four to five thousand dollars for the state to care for each criminal in Penal Institutions.

It is the preventive nature of the work which gives this department its great value to the Province.

The Children's Protection Act of Alberta is the best Act of its kind in use on the American Continent, and its results show a good record in saving to good citizenship thousands of lives of children, who are drifting into lives of debauchery and crime.

Good roads, and good public buildings, are essential, but what use are any of them unless good citizens are developed to properly enjoy and use them. The great object of this work is to produce good and upright citizens.

The ramifications of this department turn into innumerable channels in the course of the work.

It is to be understood that in most cases, the difficulties are adjusted without going into court.

Local Children's Aid Societies and committees have been organized in various places, and those who are interested and would wish to join the local branch, or organize a society, are requested to communicate with the Superintendent of Neglected Children, Old Parliament Building, Edmonton.

RESPONDENT

Is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. For sale by all dealers.

Tenders for Stock

Tenders will be received up to 5 p.m. on Friday, Sept. 13th, for 500 shares of stock in THE BLAIRMORE BREWING AND MALTING COMPANY, LIMITED, (Incorporated in Canada), amounting in all to \$150,000, being at a par value of Five Dollars per share. The highest or any tender not necessarily accepted.

This is an excellent opportunity for any party wishing to invest money in a prospective business.

Also 66 shares of capital stock of Blairmore Open House Company, Limited, par value \$50.00 per share. We understand this stock will pay 7% interest in the near future.

SHE STOPPED THE PAPER.

The Editor Didn't Know Why, but Followed Instructions.

SHE came down the street three steps at a time and called into the newspaper office like a whirlwind. She waited for no ceremony, but wildly asked:

"Is this the printer's office?"

"Yes, madam."

"I want to stop my paper."

"All right, madam."

"Stop it right away, too."

"It's stopped," we replied, making a blue line through her husband's name on the subscription list.

"Maybe that will learn you some business and how to do the square thing next time, and not to slight people just because they are poor. If some rich stuck up fellow happens to have a home-laid idle baby born to 'em you're in an awful hurry to put it in the paper and make it out an angel, but when poor people have a baby you can't say a word about it, even if it is the prettiest child borned. That's what I'm stopping the paper for. This ought to be a lesson to every paper in the United States."

And she went out of the office as mad as a wet hen.—Kaw City (Okla.) Tribune.

What Became of It?

"What new string?" said Mrs. Hooper as she drew her arms out of the washbowl. "Anybody might think it was made of string, the way you go up. Why, I gave you a great long piece of string only yesterday. Can't think what you do with all the string?"

"Well, mother, said Dick, 'I know what I did with that piece. First you took half of it back again."

"I don't want no impudence. If people have to be done up whose faults that?"

"Then Tom took half of what was left to go fishing for sticky backs in the canal, where there were no fish."

"Tom's your elder brother, and it's your place to give way to him."

"Yes, I dare say; but it didn't last much, and father took half of that to mend his braces what he broke through laughing at the motor accident, and sister had three-fifths of what was left after to tie her hair back."

"Ah, but what did you do with all the rest?"

"All the rest of it? Why, there wasn't but nine inches left to myself, and how was I going to make a telephone of that?"—London Strand.

There's No Use Stalking.

A farmer was approached by a tramp, who asked for something to eat and a night's lodging. It was pretty well toward evening, and the work was all done, so the farmer gave the tramp the supper and sent him to the barn to sleep, agreeing that he was to call him the next morning in time to work out his "keep."

About half past 3 in the morning the farmer called out the tramp.

"Here's all this boss," said the tramp, rubbing his eyes.

"Time to get up and work."

"What doing?"

"We're going to reap."

"Heap what?"

"Oats."

"Are they wild oats, boss?"

"No, of course not."

"Well, if they ain't wild oats why do you have to sneak up on 'em like this in the dark?"—Hippocrits.

Sympathetic Voice in the Distance.

How are you getting on, old man?

Sanguine Begonia said that rate. Just made three perfect puts on the last green.—Punch.

One Home.

Teacher—"What little boy can tell me where the home of the swallow is?"

Small Boy—Is it the stumuck?—Edmund Jester.

Also on Face. Began to Ooze Watery Matter. Torture of Itchiness. Pimples Festered and Enlarged. Cured in Two Weeks, Thanks to Cuticura Soap and Ointment.

Mr. Edwin Tod, Institute, Muncey, Ontario, "I suffered from terrible trouble for two months before taking Cuticura Remedies. The trouble started on the back of the neck. When irritated, this became turned to pimples. These pimples soon began to spread up the arms, from the arms to the whole body. They also came up on the face. Having spread over my body they began to ooze watery matter. Then began an intense itching, and I could not sleep. I began to feel the need to keep the pimples and make them extremely sore. They festered and enlarged, then they began to ooze. These spots became scabbed and now beyond expression."

"I am for a sample of Cuticura Soap and Ointment which I received quickly and I expected. I was much relieved at the first application. I continued applying the Cuticura Remedies for two straight weeks, then I was completely cured, thanks to Cuticura Soap and Ointment." (Signed) John Jamieson, Mar. 6, 1912.

Cuticura Soap and Ointment are sold throughout the world. Send to Foster D. & C. Corp., Dept. 56D, Boston, U.S.A. For free sample of each with 2-page book.

W. N. O. 283

THE ONLY CURE.

WHEN you can't get her out of your head, young man.

And you hate what you have to do.

And you smile every task that you find you can.

And the others you hurry through; When all you have to do is to smile (I know how each symptom goes). There's only one way to get over it.

The next time you see her—propose.

When you think when you're called to the telephone.

That here is the voice you'll hear And because it isn't you sigh and groan When you find that your brain's not clear.

And you can't add figures or write a bit, When the columns are all swirled.

There's only one way to get over it. And that is to marry the girl.

—Edgar A. Guest in Detroit Free Press.

Thoroughly Qualified.

A family of four women bought an automobile. In their search for a chauffeur they were very hard to suit.

At last a man applied whose qualifications could not be gained.

Before demonstrating his ability to manage the machine he asked:

"I used to be a window dresser, you know, in a big dry goods store."

"Indeed!" said the eldest daughter.

"And may I ask how that helped you to qualify for this position?"

"How?" he exclaimed. "Why, great Scott! Didn't I put all those drapery things in artistic style, and can't I tie the robes and furs around you ladies till you look like regular fashion plates?"

It was fortunate for the women that the young man was also a competent chauffeur, for he got into the job without further questioning.—Washington Herold.

In the Chair.

"No sooner was I seated in the chair," began Jones, "than the baronet commented on the weather and directed a current of discourse into my ears."

"No he comprehends par," said I, with an inward chuckle, thinking his voice loud and clear.

"In very good French he started in afresh. I looked at him as if bewildered, and then interrupted him by asking:

"Wasn't he?"

He began to repeat in German and then began saying, when I shut him off with:

"Oh, talk to me with your fingers. I'm deaf and dumb!"—St. Louis Post Dispatch.

Logie.

Logie is a method employed by some people to convince themselves that they are right upon any question in which it would be extremely inconvenient for them to be wrong.

Logie is indulged in almost exclusively by professors and young married men. Old married men know better.

Logie is generally used as a substitute for experience. It has essayed upon several occasions to compete with ridicule, but has generally failed to come to time after the first round.

Logie thinks before poetry, intention, usually superior silence instead of the usual resort of mediocrity.—Life.

Going Too Far.

First Judge—Justice is always represented as blind.

Second Judge—Yes, and some of our lawyers shoot an if she were also deaf.—St. Louis Globe-Democrat.

Prospects.

"That's a wonderfully smart child of yours."

"Well," replied Mr. Biggins, modestly, "I don't know whether he is so very smart now. But he ever finds out the answers to all the questions he asks as well as a world better."—Washington Star.

Comparatively Easy.

"An aviator is building a machine to fly across the Atlantic and land in England."

"That has already been done."

"You mean to tell me that men have already flown across the Atlantic?"

"Yes, but they had already built machines to do it."—Houston Post.

An Evil Tongue.

"She has an evil tongue, the baroness. She's always saying you couldn't get on without your servants."

"I've heard before that she had only been a servant, but I didn't remember having her here myself."—Punch Folio.

Real Humiliation.

"It must be rough to lose the road over your head."

"Yes, but think of having the more pure foreclosed on your automobile!"—Pittsburgh Post.

An Easy Job.

Counsel—What is your business?

Witness (nervously)—My business? My wife's a washwoman.

He Knew.

The professor of the class in English history was telling his students of the

improbable case about the young man, suddenly turning to one of the young men who seemed to be in a dream he said:

"And how old was Elizabeth, Mr. Case?"

"Eighteen last birthday, on the instant reply from Mr. Case, who was thinking of someone else's class."

A Tombstone to a Trout.

A tombstone erected many years ago to the memory of a trout may be seen at Blockley, Worcester, England, as proof positive that this is not a fish story.

The following is the interesting story of the fish: Under the

Memory of the old fish. Twenty years he lived and then died. He was so tame, you understand, he would come and eat out of your hand. Died April 20, 1866. Aged 20 years.

Sorry He Spoke.

Scientists state that seafaring people should always keep chocolate

on hand, as it is good for weakness. Chocolate contains many heat units and is valuable in time of emergency.

How nice, responded the man. Better take a two-pound box when we go right this afternoon.

Another Complication.

Horse racing has always been complex. You have to look for the

best condition of the horse and condition of the track.

And now you have to look out for interference by subterfuges.

The Boy is All Right.

The boy is all right, said the doctor, but you want to talk to him and

arouse his ambition. Promise him that you will take him somewhere

where he can recover sufficiently to

out. Talk to him about playing hockey with the fellows. There are

lots of ways in which you can interest him.

Then the doctor addressed the little child, who was just recovering from the fever, saying:

"Come, Billy, cheer up. Wouldn't you like to go out and play with the other kids?"

A faint smile stole over the boy's face, but that was all.

Wait a minute, doc—I'll rouse him. Interrupted the kid's father.

Well, boy, would you like to go out and steal the milk bottles off the neighbors' porches, drink all the milk

and then come back and tell the street to what the automobile tires will explode.

The child sat up and asked for his trousers.

When the doctor called to see the

baby his mother informed him that the medicine left for the infant the

doctor was all gone. Impossible, declared the surprised

physician. I told you to give him a teaspoonful once a day.

Yes, but John and mother and I and the nurse have each had to take a teaspoonful, too. In order to get

the baby to take it.

The traveling salesman had four

minutes in which to catch his train. Can't you go faster than this? he

asked, but the street car conductor

Yes, the bell-ringer answered, but I have to stay with my car.

Mark Twain's Egg Order

Mark Twain once lived at the Play

Club New York. The club was so

that they use really hard two eggs, but not three. One morning a new

customer came to the breakfast order. Clemens said:

Boy, put three soft eggs in that cup for me.

By and by the waiter returned, bringing the breakfast. Clemens

asked at the egg portion and asked: Boy, what was my order?

Three soft eggs broken in the cup, Mr. Clemens.

And you've filled that order, have you?

Yes, Mr. Clemens.

Boy, you are trifling with the truth, I've been trying all winter to get three eggs into that cup.

THE "BLUES"

A Lady Finds Help from Simple Food

Civilization brings blessings and also responsibilities.

The more highly organized we become the more need there is for regularity and natural simplicity in the food we eat.

The laws of body nutrition should be carefully obeyed, and the finer more highly developed brain and nervous system not hampered by a complicated, unwholesome diet.

A lady of high nervous tension says:

"For fifteen years I was a sufferer from dyspepsia. I confess that an improperly regulated diet was the chief cause of my suffering. Finally nothing that I ate seemed to agree with my stomach, and life, at times, did not seem worth living."

"I began to take a pessimistic view of everything and see life through dark blue glass, so to speak. My head became affected with a heavy creeping sensation and I feared paralysis."

"Palpitation of the heart caused me to fear that I might die suddenly. Two years ago, hearing Grape-Nuts so highly spoken of by some estimable friends of mine, I determined to try it."

"The change in my condition was little less than miraculous. In a short time the palpitation disappeared and my head began to clear. I feel in head and body better than I have ever enjoyed."

"My weight has increased 20 lbs. in the last year and I look bright and sunny to me as it did when I was a child."

Name given by the Canadian Post Co., Windsor, Ont.

"There's a Reason," and it is explained in the Little Book, "The Road to Wellbeing," in 10 pages.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

When you want to clear

your house of flies, see that you get

WILSON'S

FLY PAPER

Imitations are always unsatisfactory.

Just What Did She Mean?

Mrs. Nabery—How long were you in attendance on Mrs. Smith before she died?

Young M. A.—Fourteen months.

Mrs. Nabery—Dear me! The sum of lady must have been very careful.

McE—Why did ye strike my child

for naething?

Teacher—I struck him because he wouldn't all me the reason the Rev. Thames was. He only stood and looked at me.

McE—He was dumfounded at your ignorance, likely.

DIARRHOEA QUICKLY CURED
"I was taken with diarrhoea, and Mr. Yorks, the merchant here persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others

that I gave it to," writes M. E. Gehl, Orléans, Pa. "That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers."

Local and General

The Crystal Dairy is about to change hands.

W. A. Freeburger came up from Lethbridge on Saturday.

Mrs. L. H. Putnam has returned from an extended visit to eastern Canada.

W. Ayres has severed his connection with the West Canadian Collieries.

A concrete foundation for a large new residence is being laid on Sixth Avenue.

Mrs. Daman and H. P. Daman, of Frank, were visitors to Cranbrook last week.

W. J. Budd, managing director of the Keystone Cement Co., was in town on Monday.

Rumor has it that F. W. Lindsay, the Pincher Creek jeweler, will open a shop in Blairmore.

Mr. and Mrs. H. R. Berry returned from their honeymoon trip to Cranbrook on Tuesday night.

Miss S. Boomer came down from Weta-kiwi on Saturday, on a brief visit to her sister, Mrs. H. Gibeau.

Saturday last was pay day at the local mine, and business was rather brisk in town Saturday night.

L. H. Putnam is in Macleod today attending to the defence in case of Rex vs. Poak, and Rex vs. Dunlop.

Capt. W. A. Beebe, L. H. Putnam and Mrs. Putnam attended the Polo dance at Cowley Wednesday night.

L. H. Putnam has moved his office up stairs in the Enterprise building, over the Blairmore Hardware store.

Rev. W. H. Muncester visited Grassy Lake last week, and officiated at the Presbyterian services there on Sunday.

Dick Marshall will mix-up with Joe Uvanni at Fernie or Cranbrook on Tuesday, the 23rd, in a fifteen-round boxing contest.

A. Barless, coal inspector of the C.P.R., paid a business visit to Calgary on Wednesday, returning to town on Thursday.

Rev. Mr. Kay occupied the pulpit at the local Presbyterian church on Sunday last. His discourses were much appreciated.

A large number of local folks availed themselves of the Wednesday half holiday to attend the polo tournament at Cowley.

H. M. Ruther, formerly of the Union Bank at Brooks, Alta., came to town Sunday to take the place of J. Harrington, who is ill.

The Presbyterian Ladies Guild will hold a sale of work on Tuesday, September 23rd, particulars of which will be given next week.

The new boilers for the electric system were commissioned on Saturday night last, and the light service is now very much improved.

Miller Bros' shows concluded their operations here on Saturday night, and left on Sunday for Cranbrook, where they will put up side shows at the fair.

The members of Coleman Rebekah lodge intend holding a social evening in the Eagle's Hall, Coleman, on Tuesday, September 23rd, to which all Oddfellows and Rebekahs are invited.

The proprietor of this paper left for Edmonton on Wednesday to attend the annual convention of the Alberta and Eastern British Columbia Press Association. He will return to town on Tuesday next.

J. M. Jones, brother-in-law of W. P. Williams, and wife, Buckley, Washington, spent ten days with Mr. and Mrs. Williams here, and returned homeward on Tuesday morning. Mr. Jones is a prosperous business man in Washington. Both visitors enjoyed their stay in the Crows' Nest Pass immensely.

It is gratifying to the friends of M. J. King the genial manager of the Alberta hotel to learn that he has fully recovered from his recent accident when he tried to jump in back of an auto, running backwards.

Old "Bill" Miner died again on Saturday last, he reached the age of sixty years, half of which period was spent behind the prison bars and the other half in planning how to get there. Even "Bill" Miner existed for a purpose.

The District Court opened in Blairmore on Wednesday forenoon, Judge McNeil and attorneys Putnam, Roberts, Moore and Gillis being present. A number of garnishee cases were heard, and but a few other trifling matters came up for adjudication.

Four teams entered in the baseball contest at Fernie on Labor Day, namely Macleod, Fernie, Wardner and Frank. In the morning Wardner beat Frank 8 to 1, and in the afternoon Macleod beat Fernie 3 to 0. In the final Macleod won from Wardner by 8 to 6.

On the request of the R.N.W.M.P. the management of the Miller Bros' shows appeared in the police docket on Saturday on the charge of obtaining money by a gambling process. As their business was shown to be quite in compliance with their licensed privileges the case was dismissed.

Among the telephone lines now under construction in British Columbia, to assist in the preservation of forests from fires, is a line from Cranbrook to the summit of Mount Parker, a height of 7,300 feet. From this vantage point the smoke of any fire up or down the Kootenay valley can be discovered.

His Honor Judge McNeil heard assessments appeals of West Canadian Collieries, Limited, who complained of over assessments. After hearing evidence both pro and con his Honor was pleased to dismiss the appeal, and allowed the assessment to stand. John Smith (K.C.) appeared for the company and showed extreme ability as a legal light, while Mayor Harry Lyons appeared for the town, and of course, outwitted the learned (K.C.) in every particular, and once again helped his town out FINANCIAL.

Among the guests at the Cosmopolitan this week were J. J. Branniff, Pincher Creek; G. A. Rolly, W. Gould, J. E. Churchill, J. C. Doehman, B. W. Dunn, H. Johnston, C. Humphrey, A. A. Smith and wife, Calgary; J. B. Hall, A. McLean, C. Higgins, Coleman; H. L. Sawyer, Mayville; A. Corrie, Fernie; B. G. Miller, S. O. Lake, Fernie; W. A. Reddock, W. O. Chandler, E. K. Higgins, Winnipeg; E. H. Prime, Chicago; W. L. Hamilton, Passburg; H. C. Abraham, Spokane; J. J. Goodman, W. T. Kelly, J. T. Kelly, J. A. Gilles, Moose Jaw; R. Armstrong and wife, Vancouver.

A fire originated in the building owned by the 41 Market Co. at Frank on Monday morning and ere it was extinguished it did considerable damage to the interior of the building. The Frank fire apparatus was commissioned in quick time, and the Blairmore emergency brigade were almost as soon on hand with an effective stream from nearby hydrants. How the fire originated is unknown. Shortly after the firemen had quit the scene, a second outbreak occurred necessitating the response of fire chief Whiller and his men.

Thomas P. Cyr, the Lake City magnate, has taken unto himself an auto of ancient type. The machine is quite a novelty. It can be operated by gasoline, but "Tom" claims it can attain a great speed on Ginger-Pop fuel. "Tom" as a co-partner with H. J. Matheson knows a good thing when he sees it. He sees in Lake City the makings of one of the most ideal summer resorts of this last great west, and if his plans are carried fully into effect the holiday seekers will find at Lake City the last word of equipment and accommodation.

Macleod Rancher

Committed Suicide

Macleod, Sept. 8.—Word was received at Macleod this morning to the effect that James Patterson, one of the oldest and best known stock men of this district, had committed suicide at the John Franklin ranch near Standoff, by shooting himself. The tragedy took place last night, but as the ranch is quite a distance from Macleod very few details of the suicide are available as yet. Mr. Patterson was about fifty years of age and until recently has held the position of stock and brand inspector for Southern Alberta, and his large experience with the cattle business highly qualified him for the position. He recently, however, purchased an interest in the Franklin ranch and had entered partnership in the horse business with Mr. Franklin. Mr. Patterson was quite prominent in the management of the Calgary Stampede and was also an official at the one held in Winnipeg recently. He was considered fairly well to do by all those who knew him and was supposed to be from trouble as to his friends in this district rose at a loss in finding a motive for this rash act.

CAUGHT A BAD COLD

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah E. Duncan, of Tipton, Iowa. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely." For sale by all dealers.

Frank

W. J. McGowan arrived back from Calgary Wednesday.

J. Johnson, of this town, was called away to Regina this week, where his brother is seriously ill.

The next meeting of Stationers' Engineers will be held next Thursday night at the usual time and place, Sept. 18.

Mr. Bogdrea, from the coal company office, left for Cowley on Wednesday to take in the polo game along with several others.

Miss M. Sharrett, who is a visitor with Mrs. Gleaves, left with Miss Rigby for Lundbreck to spend a week's holiday there with friends.

We regret to announce the sudden departure of Mrs. Glover, of England, who has been on a visit to her daughter here, Mrs. W. Jolly, for some months, having been called by cable to return home through sickness at the other end. We hope the tide has been turned by the time she arrives home and wish her a pleasant journey.

It is only a matter of a short period now when a complete aerial tramway and monoplane service will be in operation between the Lake City and Blairmore, automobiles will co-operate with an electric car system in conveying the thousands of holiday seekers who are tired and worn from the excitement and busy everyday life of The Metropolis who desire to lay off by the lake to back in the summer breeze, shut-the-slides will be constructed, motor launches and jolly boats will add materially to the importance of the holiday conveniences.

Besides all this the wireless telegraph and telephone will be placed at the disposal of guests without the users being required to pay for the monopolization of the pure air. Parks are to be laid out on New York park, but the American eagle will not be permitted to perch upon the roof of Uncle Tom's cabin. Time must only tell the tale of what the future of Lake City will bring forth. We have witnessed the rest of the Crows' Nest Pass rise from the slop to a condition of great development; now we shall have to hope for the outcome of the promotions of the Lake City pioneers. The Dominion Postal Department has already been figuring on subsidizing Mr. Cyr for conveying the Coleman Bulletin to Sentinel and other thickly populated parts of the district.

Bellevue Happenings

Mr. Sheldon has moved to Geo. Knowles house.

Pete Ubertino is building a kitchen onto his house.

Mr. Harper, of Fernie, is spending a few days in the camp.

Rev. Baker, of Livingstone, was a Bellevue visitor this week.

Robert Riddle and family are occupying their new residence.

Jack Barwick has been elected vice president of the local union.

Mrs. John Crawford has moved up from Cranbrook to join her husband.

Mrs. J. B. Rudd went up to Pincher on business on Monday evening.

Mrs. J. R. and Mrs. J. D. MacDonald were Coleman visitors on Saturday.

Mrs. Wm. Van Busker, of Fernie, is visiting with Mrs. David Davidson.

Mrs. Robert Evans and Mrs. Shone were Coleman visitors on Thursday.

Mr. Davidson is acting manager of the local bank in the absence of Mr. Windsor.

Miss Belle Steele, of Frank, is visiting in the camp, the guest of Mrs. Frank Hurrows.

George Christie is working at No. 2 mine, owing to the slackness of business at the time.

The Alberta Government mine rescue car is a Bellevue visitor this week. Bill Powl in charge.

Thomas Hannington and family have moved up from Fernie and are residing in the old Hart place.

Tom Stephenson is commencing classes in mine surveying, and will be glad to meet prospective students.

Mr. and Mrs. Windsor of the Union Bank, have left for a three months' vacation to Eastern points.

Jack Stone won distinction as a life saver at Rock Creek on Sunday last. A fisherman somehow got into a deep hole and was helpless until rescued.

Bellevue lost the Unity Cup in their game at Coal Creek last Saturday meeting defeat by a score of 2-0. Our only hope of landing any silverware this season is now the Craze Cup which looks pretty safe.

Charlie Carrington has left the Camp for his former home in Washington. Charlie has been here since the settlement of the strike and has made many friends. He was vice president of Local 481 U. M. W. of A.

The children of Bellevue were disappointed by another delay in opening the school this week. Children and teachers alike are anxious to get to work after their long holiday. Public notice will be made as soon as the new building is ready to be occupied.

There is a movement on foot to provide a series of entertainments for the people of Bellevue during the winter months. This movement rose out of a sermon preached in the church last Sunday evening on the influence of a dead town on health and morality. Bellevue like some other town has suffered from an overage of knockers. One knocker does more to hurt a town than ten bootleggers can do to boom it. The knocker is a parasite on human happiness and ought to be treated like any other thief. There is no reason why Bellevue shouldn't be the liveliest place on earth. Let's get after it and make it so. Let the clutter of the knockers waste itself on the desert air.

Briefs

The inauguration of Werburn as a city took place Wednesday, Sept. 10, the streets being crowded and prominent officials of the Province and representative officials from sister cities took an active part in the proceedings.
